

Model EZXCAB

Expandable Media Filter with Cabinet

Preferred[™]
SERIES

Bryant Lets You and Your S

Enhancing Your Comfort Since 1904

Thanks to Bryant, American homeowners have enjoyed enhanced comfort and indoor air quality since 1904. Through the commitment and dedication of our product development and manufacturing teams, we have consistently met every new challenge head-on and delivered the products to meet or exceed expectations. As today's energy efficient homes seal in more dust, dirt, pollen, mold and other airborne irritants than ever before, Bryant offers a highly effective and convenient solution for protecting the air you breathe - the Model EZXCAB expandable media filter with an attractive and durable cabinet.

High Efficiency Indoor Air Filtration

Your home is you where you go to relax. However, pollen and mold spores can enter through open doors and windows, bacteria and viruses can spread between family and friends, fine dust particles get kicked up from floors and furniture, and dander and hair fall from pets. Bryant's Model EZXCAB

uses our EZ Flex™ expandable media filter to help clear the air by trapping many of these particles and preventing them from reentering your living areas. It's an efficient and economical way to protect your home furnishings, allow your system to run more efficiently, and enjoy cleaner indoor air.

System Breathe Easier.

Performance

Peace of Mind

The Model EZXCAB is the perfect complement to your home comfort system because it's sized and designed for quick, easy and leak-free installation. It's versatile too, easily upgradeable to the Model EAC, Bryant's electronic air cleaner, for even better air filtration. And because it's from Bryant, you can be confident it has passed the toughest, most thorough reliability testing in the industry so you can enjoy cleaner indoor air as well as reliable and efficient operation, season after season.

Enhanced Performance and Convenience

The Model EZXCAB can reduce dirt and dust buildup on your system's components. As a result, this air cleaner promotes lower utility bills, long term reliability and peak system performance. Unlike many competitive media filter products, the Model EZXCAB is designed to allow maximum airflow even as dust builds up on the filter. Continued optimum performance is as simple and convenient as removing and replacing the disposable media filter once a year.

Bryant's Model EZXCAB air filtration system cleans your home's air of the small size pollutants and contaminants that irritate your eyes, lungs and sinuses.

Cleaner Indoor Air

How It Works

EZ Flex Filter

EZXCAB

STURDY FLEXIBLE CABINET DESIGN

The EZ Flex with cabinet features a sturdy 20ga. Powder coat painted cabinet that can withstand the weight of a 400 lb. furnace, the EZXCAB can be easily upgraded to the EAC – Electronic Air Cleaner.

MERV 10 EFFICIENCY

is Bryant's most efficient expandable filter rating. EZ Flex, while maintaining this efficiency, offers one of the lowest airflow resistance levels.

APPLICATION VERSATILITY

without sacrificing performance means that EZ Flex does a great job filtering air in new installations and older installations alike.

ENGINEERED TO PERFORM

while maintaining the integrity of your Bryant system. EZ Flex is designed by a company that understands the whole system. Other filters are designed by companies that focus on filtration only.
